

Communication

Date	02 JULY 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Whatsapp/Google Meet	Narnamangalam Bhumika(individual)	Discuss daily tasks and project progress
2	Progress Update	weekly	Whatsapp/Google Meet	Narnamangalam Bhumika(individual)	Share weekly progress and receive guidance
3	Issue / Bug Discussion	As Needed	Whatsapp/Google Meet	Narnamangalam Bhumika(individual)	Resolve coding issues and debugging problems
4	Stakeholder Review	Bi-Weekly	Whatsapp/Google Meet	Narnamangalam Bhumika(individual)	Review project progress and receive feedback
5	Final Demo Rehearsal	Once	Whatsapp/Google Meet	Narnamangalam Bhumika(individual)	Practice the final project demonstration
6	Project Submission Discussion	Once	Whatsapp/Google Meet	Narnamangalam Bhumika(individual)	Verify documentation, GitHub repository, and final submission

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty integrating the Machine Learning model with the Flask application	Tested the model separately, verified input features, and corrected feature mismatches before deployment.
2	GitHub upload issues due to large dataset size	Uploaded all source code and model files to GitHub and provided the Kaggle dataset link in the README because the dataset exceeded GitHub's web upload limit.
3	Debugging prediction and feature mismatch errors	Reviewed preprocessing steps, ensured the correct scaler and encoder files were used, and retrained/saved the final XGBoost model for successful deployment.
