

Project Demo Planning

Date	02 JULY 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objectives, and problem statement	2	Narnamangalam Bhumika
2	Dataset & Model Overview	Explain the dataset, preprocessing steps, feature engineering, and Machine Learning models used	3	Narnamangalam Bhumika
3	Solution Architecture	Explain the project architecture, workflow, and technologies used	2	Narnamangalam Bhumika
4	Live Application Demo	Demonstrate the Flask web application by entering applicant details and showing the prediction result	4	Narnamangalam Bhumika
5	GitHub Repository & Documentation	Show the GitHub repository structure, README, documentation, and project files	2	Narnamangalam Bhumika
6	Conclusion & Future Scope	Summarize the project, discuss future enhancements, and conclude the demonstration	2	Narnamangalam Bhumika

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce yourself, explain the problem statement, project objectives, and why Machine Learning is suitable for credit card approval prediction.
2	Solution Overview	Briefly explain the dataset, preprocessing, Machine Learning models (Logistic Regression, Decision Tree, Random Forest, and XGBoost), and why XGBoost was selected. Show the solution architecture.
3	Live Feature Demonstration	Run the Flask application, enter applicant details, demonstrate the prediction (Approved/Rejected), and briefly show the GitHub repository and project

		documentation.
4	Q&A Session	Answer questions related to the dataset, model selection, accuracy, preprocessing, Flask deployment, GitHub repository, and future scope.
